Enercon Technologies LTD designs, develops, manufactures, and provides reliable power supplies and Networking products. Enercon Technologies LTD products supplied to the military and aerospace industries combine smart and innovative solutions based on high frequency energy conversion technologies.

The company strives to achieve, maintain, and improve its customers' satisfaction, quality of its products and its internal processes, continuously, to comply with its customers specified and implied demands and in accordance with its internal quality procedures, applicable laws, regulations and common practice traditions.

Enercon strives to achieve continuous improvement in the quality of its products and services. A necessary condition to achieve this goal is employee and management involvement in quality at all stages of production and meeting the needs and requirements of the customers.

The management at Enercon Technologies LTD continuously inspects the effectiveness of the quality system and sets quality goals, based on past performance, during management reviews, in order to achieve continuous improvement. The company's constant quality goals are:

- Effectiveness and efficiency of processes.
- Customer satisfaction
- Supplying products with the required quality level.
- On time delivery of products and services.

As part of the company's quality policy, the management chose to implement the requirements of AS9100 and ISO9001 standards as a framework in which the company shall fulfil its goals and objectives.

The management will continuously act to implement the quality policy, at all levels of the organization, through training, allocation of required resources and highly skilled personnel.

The management shall define, during management reviews, quality goals and objectives. Data shall be gathered and presented during management reviews to ensure meeting the required goals and continuous improvement of the quality system's effectiveness.

The quality policy is reviewed periodically to verify its ongoing conformance. The quality policy, signed by the CEO, is published throughout the company's premises.
